

ANCCLI : a national network concerning transparency and nuclear safety - Let's talk about nuclear issues!

1

Involvement of ANCCLI in discussions about emergency and post-accident situations

Diagnosis of ANCCLI : civil society is central to the concerns of emergency and post-accident situations

2

- **ANCCLI created a working group on emergency and post-accident situations - GPPA**

OPAL : an awareness tool to promote the linking of local stakeholders and encourage them to work together on preparation for emergencies

- Presentation of the national radiological emergency Plan
- Necessity of testing the plans and involved people
- Importance to have a coherence between national plans and local realities (local versions)

CLI and ANCCLI are involved in the post-accident french process : CODIRPA

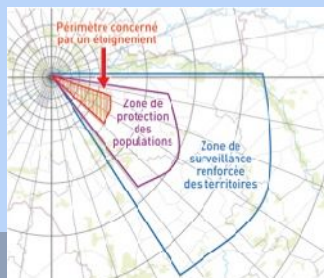

3

- **Post-Accident doctrine : CODIRPA**

- **Meeting of May 16th : test the robustness of the CODIRPA program in the case of a situation of long emissions (15 days)**

- Too much zoning: PPI for emergency - PE, ZPP, ZST for post-accident situations
- Difficulty for a crisis manager to take emergency measures while anticipating post-accident previsions
- Necessity to engage a local reflection on the recommendations of the national doctrine with the elected representatives (ASN – ANCCLI)

ANCCLI : a forum to debate and highlight the recommendations of the civil society

4

- **Cross border working group (Cattenom, Chooz, Gravelines, Fessenheim)**

- To share best practices, exchange of experiences on relationships between CLI and neighbors countries
- June 19th : workshop about "protection measures for population in emergency situations - PPI". What is the legislation in France? What are the positions of neighboring countries about this protection measures? What kind of information can circulated?
- Ways to improve

ANCCLI : a forum to debate and highlight the recommendations of the civil society

5

- **Cross border working group (Cattenom, Chooz, Gravelines, Fessenheim)**
 - Establish practical recommendations on measures to protect the population
 - Adapt emergency plans to local realities
 - Distribution of iodine tablets (scope, mode)
 - ✓ Consider evacuation modes (manage voluntary departures welcomed or not by neighboring countries? ...)
 - ✓ Containment : how? Need to educate populations?

These reflections are directly related to the work
of the ACN french roundtable

ACN France : ANCCLI and HCTISN (1/3)

6

- **January 2014 - Meeting of the steering committee of ACN (ANCCLI, HCTISN, ASN, IRSN, Greenpeace)**

ACN France Roundtable will continue its work but is awaiting renewal of HCTISN

Several work topics are considered :

- 1) Implementation of the recommendations made during the first ACN France roundtable ACN (ANCCLI-HCTISN-IRSN) :
 - Improve the processes of public consultation (Cigéo)
 - Access to Information : citizens' access to all the information is real?
 - Ability of a sustainable citizen expertise : laboratory ..

ACN France : ANCCLI and HCTISN (2/3)

7

2) Implementation of the Aarhus Convention in the context of the extension of reactor operating time (ASN, Greenpeace)

- Which public consultation? Must be the same as for the creation authorization process?
- Access to information on issues, risks ...

3) Implementation of the Aarhus Convention in the context of the governance of the operational phase of geological repositories (ANCCLI, IRSN)

- intergenerational context
- reversibility
- Monitoring long-term

ACN France : ANCCLI and HCTISN (3/3)

8

4) Preparedness for emergencies and their management (HCTISN ANCCLI)

- Post-Fukushima background : adapt existing emergency plans
- Provide an update plans with elected officials and local actors
- Cross border dimensions (link with cross border working group of ANCCLI)

ACN Europe

9

- **Support of the European Commission for the organization of an european ACN roundtable on EP & R**
 - ✓ Presentation of the work of WG EP & R NTW
 - ✓ Presentation of the EC guidelines following the ENCO report
 - ✓ Introduction of the REX of the national roundtables (Germany, ...)

This roundtable might be held the last quarter of 2014

Thanks for your attention
