RESPONSIBILITIES IN THE SITE SELECTION PROCEDURE

MILESTONE ACHIEVED - THE SUB-AREAS INTERIM REPORT

INFORMATION & COMMUNICATION

BGE provides information basis

- Information centers at the Asse-II mine, Konrad and Morsleben repository sites offering modern exhibitions, 3D-models, underground site visits
- “As regards...” events (incl. presentations and discussions) on certain relevant issues from the disposal programmes
- Comprehensive information available on the dedicated information platform hosted by BASE
- Presentation of the sub-areas interim report (18-10 in Kassel and online, available on YouTube)
- Short explanation videos (available on YouTube and BGE homepage)
- Open access to technical meetings or dedicated sessions for discussion of technical aspects with CS

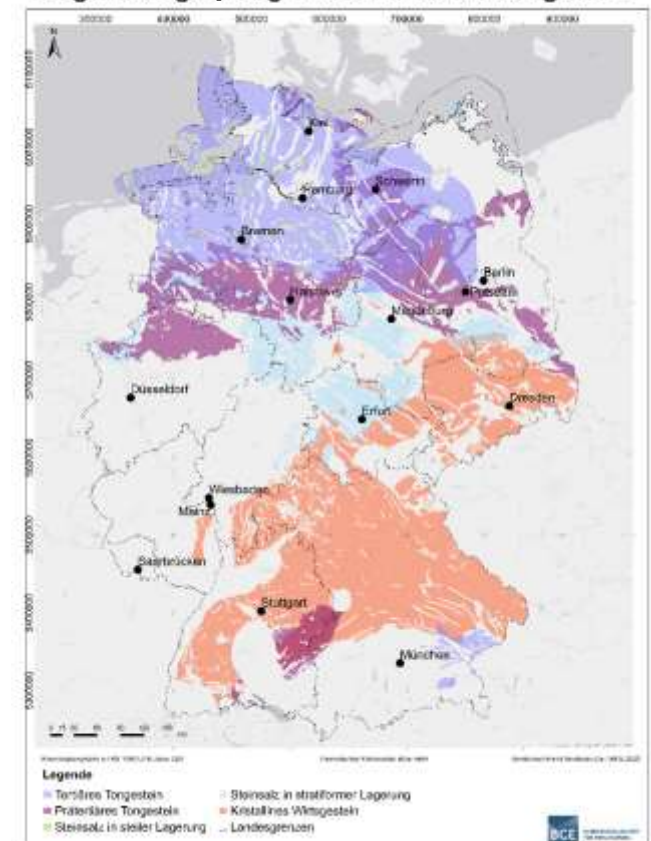

INTERACTIVITY AND PARTICIPATION

BGE encourages participation

- Interactive map of Germany including links to further information about each sub-area, offering a search tool
- Online consultation sessions for each sub-area (available on YouTube)
- Online consultation of the methodology (BGE forum)
- Accompanying support and funding of the Asse-II consultation group and the dedicated technical advisory board

sub-areas pursuant to §13 StandAG
